

Cappy with daughter, Taura

Robert “Cappy” Capuano was born from 2nd generation Italian immigrants. Growing up Cappy became very good in the kitchen. When his mom would ask him what cake he wanted for his birthday, he would reply “pizza”! His favorite cake now is chocolate cupcakes with marshmallow icing, although he still loves pizza, especially double cheese & double pepperoni. This double cheese & double pepperoni is now known as the “Cappy’s Favorite”.

Cappy graduated from Bishop Ready & served in the US Army 1968-1971. Cappy has always supported the community in whatever way possible. He has been involved with local sporting events including Pee Wee football & T-ball. He has supported other programs such as 4-H & scouts and has long been involved with the Madison county Fair. Cappy likes to help others quietly. His hobbies include running his pizza shop and golfing in his free time

Cappy resides in the Hilliard area. Due to his family’s strong restaurant background and his love for the London community and pizza he, along with his father-in-law Jack Faust, created what is today Cappy’s Pizza.

After his return from the service in 1971, they opened the first Cappy’s Pizza on South Main Street in April 1972 which only offered pick-up and delivery service. In 1978, they moved from their small location to a building on West High Street, which was formerly the old Kroger’s building. After 13 years, they moved to 247 Lafayette Street where they would remain for the next 25 years until their move to their present location of 225 Lafayette Street.

Bob intends to make 225 Lafayette the permanent home for Cappy’s Pizza. Their present location can hold 102 people comfortably and has a party room available for reservations for large get togethers or small affairs. He currently offers a daily lunch buffet with various pizzas, salad, and other items that rotate each day. Follow Cappy’s on Facebook.

Bob has loved serving the London community for the past 45 years and hopes to continue serving the London community for many generations to come as his children Taura, Nick, and Mike take over in his stead. He greatly enjoys seeing past employees and catching up when they come in to visit. Cappy says he could write a book with all the memories and stories from the shop.

He has added many additional items to his menu over the years and hopes to add a few more over the years to come. With rising competition and more varieties of pizza, Cappy’s Pizza is proud to say they have never been off course with the product they’ve served. They’ve made it their mission to never change the way they serve the community from the product you see on your dinner table to the experiences you have with the staff.
